# A New Standard

- Tested clean stock
- Indoor production
- Cleaner and more consistent production
- Published standards
- Posted availability

# Danziger Guatemala

Danziger's state-of-the-art production site in Guatemala, with a total greenhouse area of ~20 hectares (50 acres) is known for its supply of clean material, consistent quality and reliable availability to the North American market

# Danziger Production

- End-to-end Production Supply Chain
- High Quality, Clean and Uniform plant material
- Global Operations
- Agile Response to our customers needs 24/7
- Advanced information technology support systems
- Strong link to market
- International production standards

# Indoor Production of Tropicals

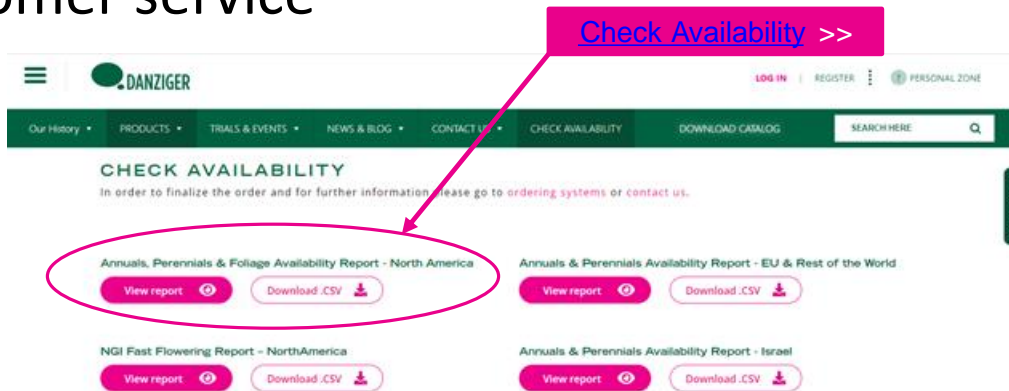

- Production of foliage plants in an indoor controlled environment means cleaner stock and cleaner cuttings
- We source from clean material for a clean start

# Consistent and Reliable Availability

- Online availability – order just like annuals & perennials
- Continuous weekly supply with availability updated regularly
- Customer service
