# COLOR YOUR SUMMER

# SUMMER BOUQUET

We've been waiting all year for the chance to enjoy summer's sun-filled days and warm, clear nights. Especially the long days at the beach with friends sipping lemonade, enjoying gelato. Or speeding around town on a bright yellow scooter, the hot wind streaming through your hair. Our bright summer bouquets are inspired by the many natural elements of the season - sweet fresh peaches, morning dew that burns off in the heat of the noon sun, cicadas singing from the trees at night, the memory of fields of lavender swaying in the breeze from our summer visit to Provence years ago.

# COLOR YOUR FALL

# FALL BOUQUET

The days are shortening and the leaves are turning color red, yellow and gold replace the greens of summer. The air is as crisp as the fresh red apples we pick from the orchard. Looking forward to a fun fall adventure walking with friends through dappled autumn hills. Sitting by the fire with some warm cider and a good book, dreaming of the holidays as they draw close. Our fall bouquets bring all the facets of the season together, with delicate pinks, toasty red and exquisite purples to bring warmth and inspiration to any occasion.

# COLOR YOUR WINTER

# WINTER BOUQUET

Snow settles, the air frosts, woolen scarves & boots appear: Winter has arrived. Winter fun in the snow contrasts with the cozy warmth of home, sharing good times with friends and family. Icicles tinkle in the trees as our focus shifts to celebrating the holidays with our loved ones. The fresh smell of pine boughs, mistletoe, holly berries and warm, spicy mulled wine inspire the palette for our Winter Collection and their artfully-designed bouquets.
